

PROJECT 213A

ARC DE STOOL '52

ARC DE STOOL '52

Designed by Project 213A in 2022

The taller version of the stool's legs curves inwards towards its triangular seat, fusing to showcase exquisite craftsmanship. The elegant complexion brings about the opportunity to match the stool in any room from a seating fixture in the foyer to a cocktail table near the bath.

Walnut

Oak

Material: Wood
Height: 52 cm
Width: 39 cm

Production time: 12 weeks
