

PROJECT 213A

FANTASTIC MIRROR

FANTASTIC MIRROR

PROJECT 213A

Designed by Project 213A in 2020

The Mirror has an organic shape cut in mirror glass backed with wood to be secure and stable. The foot is made entirely from travertine stone.

It is constructed to have the top of the mirror leaning against a wall and should not be left freestanding because of its weight.

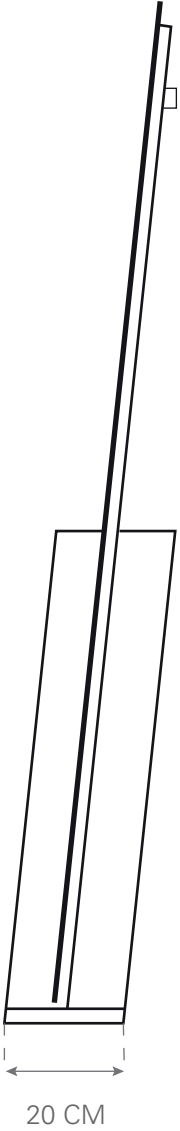

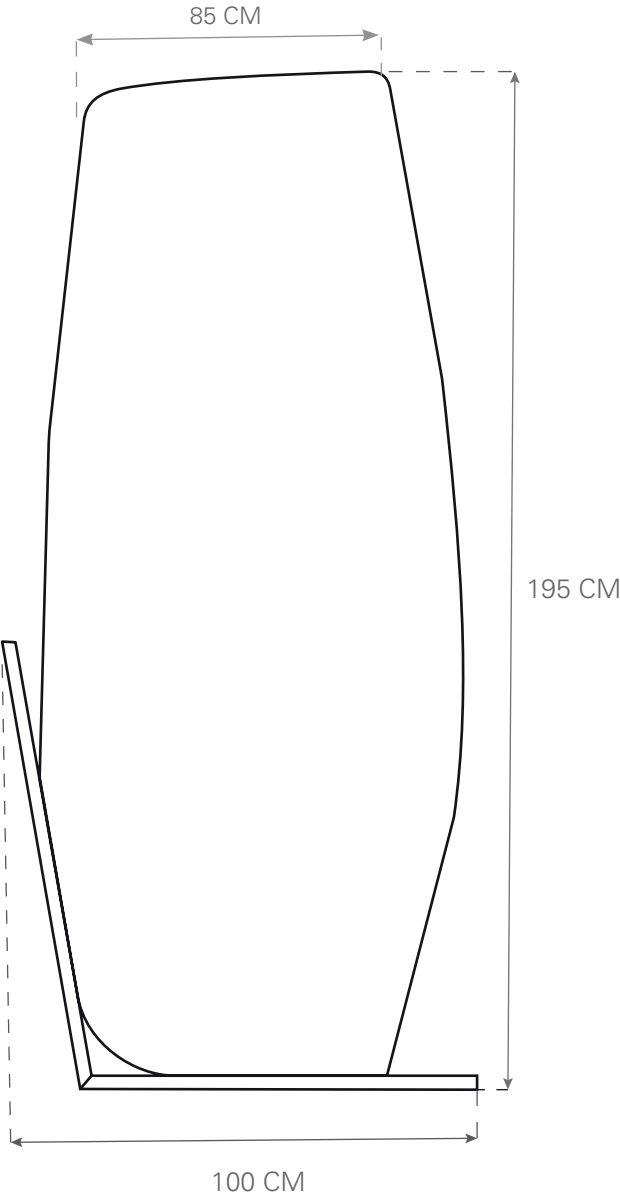

Material: Glass and travertine
Height: 195cm
Width: 100 cm, Mirror: 85cm

Production time: 12 weeks

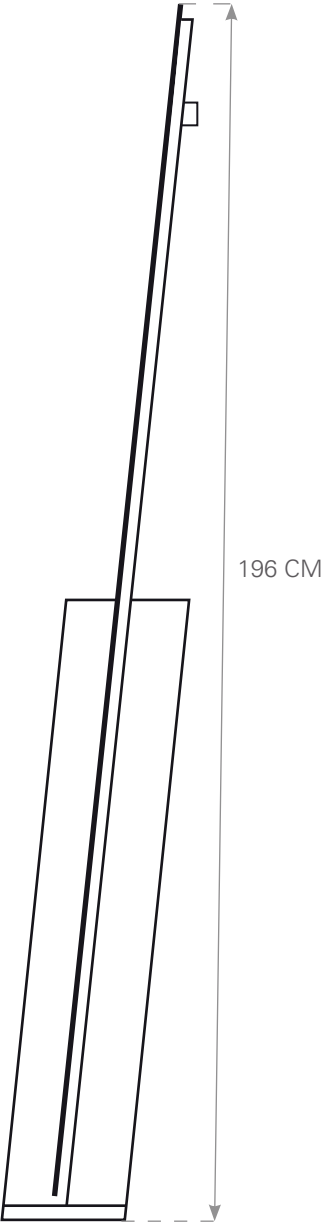

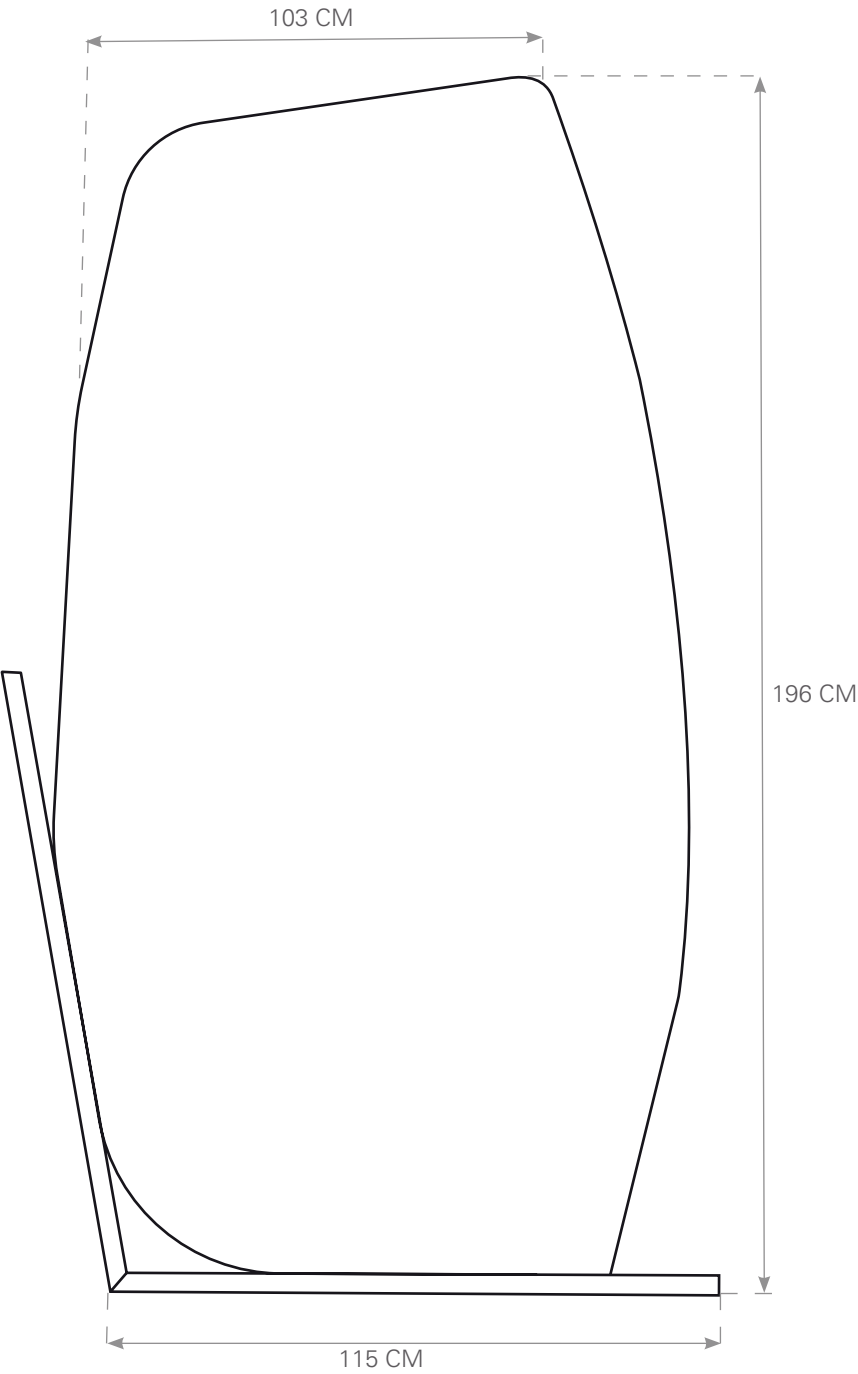

Material: Glass and travertine
Height: 196cm
Width: 115 cm, Mirror: 103cm

Production time: 12 weeks
